## X<sup>e</sup> ATR 15 Technical Data

|                                       |      |
|---------------------------------------|------|
| ● Visible Light Transmission .....    | 18%  |
| ● Visible Light Reflection .....      | 06%  |
| ● Solar Energy Transmission.....      | 16%  |
| ● Solar Energy Reflection .....       | 07%  |
| ● Solar Energy Absorption .....       | 77%  |
| ● UV Transmission .....               | <1%  |
| ● Shading Coefficient (b Value) ..... | 0.43 |
| ● SHGC .....                          | 0.38 |
| ● Glare Reduction.....                | 79%  |
| ● NIR blocking at 1025 nm.....        | 76%  |
| ● Total Solar Energy Rejected .....   | 63%  |

## Characteristics & Benefits

- Adds value, dramatically increasing the look of your vehicle.
- Provides improved privacy.
- Cuts excess summer solar heat through the glass, and can allow the driver and passenger to switch off the vehicle's air conditioning system more often, which can thereby improve fuel efficiency.
- Cuts glare down, reducing eyestrain.
- UV rejection protects your car's interior from fading and cracking.
- Effective protection against shard of broken glass in the event of an accident.
- Known for their quality and the high-quality scratch-resistant coating, Xe films are durable and virtually maintenance free.
